Hey, hey, hey keep that
left hand right where it is,
this is a family magazine.
In the background is the
JRP wheel display wall with
some sexy Volk Racing
wheels in stock!

Mmmyeah hi, this is Bill Lumberg, if you could just move some of these boxes around that would be great. JRP is the exclusive distributor of Turbosmart in the US so inquire with your BOV, wastegate and boost controller needs.

Yeah Carolyn you've been working hard and it's getting hot in here, so feel free to recline on some of those Sparcos ... this has lawsuit written all over it.

Johnston Research & Performance (JRP) is one of the exclusive distributors for Turbosmart products and offers many other popular brands including Sparco, Rays Engineering, and much more. Check out their entire lineup of performance products for sport compact at www.jrponline.com or call 905-822-RACE.

A woman with long brown hair, wearing a blue Teamtech harness, is seated in a Sparco racing seat. The harness has a white label with the Teamtech logo and the text 'MULTISPORTS EQUIPMENT'. The Sparco logo is visible on the headrest of the seat. The background is dark, and the lighting is dramatic, highlighting the woman's face and the harness.

These Teamtech 4-point harnesses are being auctioned off to the highest bidder. Hey why not, Britney offloaded that RX-8 in her video for double the value just because she planted that firm booty in the seat.
